About us

At Karndean, we recognise the need for individuality. That's why we promote the concept of stylish yet easy to create Designflooring. With a wide range of products inspired by the look and texture of natural woods and stones, we offer our customers more than just a floor. We offer you something unique and personal - a design floor.

Through meticulous attention to detail and careful selection of the most beautiful and inspiring natural woods and stones, we offer a realistic yet practical alternative to both. Each plank is crafted to reflect the unique knots and grains of natural wood and each tile to reflect the unique look and texture of real stone, without the practical drawbacks.

Karndean Designflooring is a global leader in luxury vinyl flooring with a passion for developing imaginative and innovative products. Nature is our inspiration and the start of a journey to adapt, perfect and deliver high quality LVT flooring products.

The benefits of Karndean

Hygienic

Waterproof

Warm underfoot

Durable

Lifetime warranty

Realistic

Corris **LM22** with DS10 5mm design strip, see page 45.

Our ranges

Do you love the authentic, rustic look of traditional crafted wood planks? Or perhaps you prefer the distinctive texture and intricate patterns of quarried stone? Whatever it is you're after, you're sure to find a look that's just right for you in our wide range of stylish, high quality designflooring.

The right look for every room

We know that style is personal and every space is different. To help you find the right floor for your home, see what each of our ranges have to offer:

	Wood	Stone	
Art Select	✓	✓	Lovingly created to reflect the natural materials that inspired them. These planks and stones give you timeless craftsmanship at your feet.
Da Vinci	✓	✓	Smooth, slender planks and richly textured tiles, with a modern twist. Beveled edges create distinct definition.
Michelangelo		✓	Make a statement with mosaics, metallics or soft contoured pebbles. Unique and character-packed surfaces.
Van Gogh	✓		The character of real wood in a wide range of designs including distressed, reclaimed and limed woods.
Opus	✓	✓	Fresh and contemporary. Available in larger plank and tile sizes. Simple lines and sleek design combine to create a clean, modern look.
Knight Tile	✓	✓	Our widest range of planks and tiles at our most affordable prices ensures there's something for everyone.
Karndean LooseLay	✓	✓	Quick and easy to install over most existing hard floors, Karndean LooseLay now also comes in large format 1500mm x 250mm planks.

All Karndean ranges above come with a lifetime warranty.

Lifetime Transferable Warranty

See page 182

Did you know?

All of our products are compatible with underfloor heating systems.

What is Designflooring?

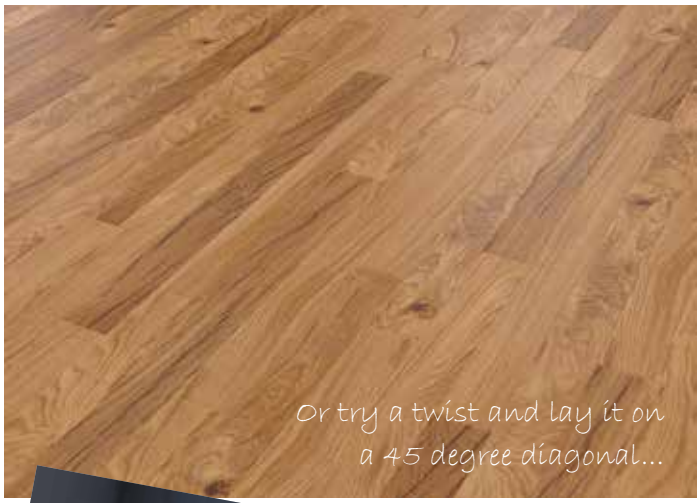
The beauty of Karndean is that you can take any of our products and, with a little imagination, create your own design within minutes.

When deciding which Karndean flooring you want to use, the advice we always give is to make sure you consider what is going to tie everything together and make most of the space. Look at the cabinets, the wallpaper, countertops, furniture and use these different elements to help you to decide which type of flooring is going to look best.

See **page 140** for our fold-out **Guide to Design Strips, Borders and Features**.

Wood

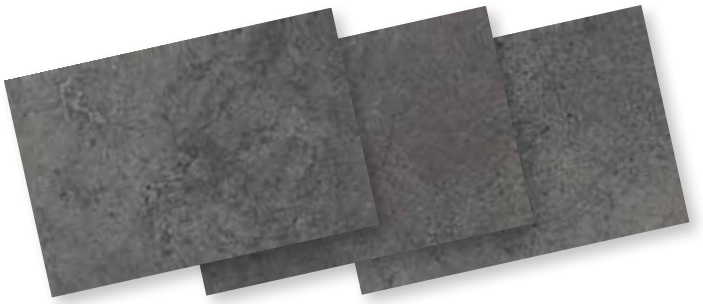
Let's look at one of our Da Vinci Wood products, **RP73 Kenyan Tigerwood**



Sable **CER16** with AF06 3mm design strip and Davyne border, see page 68.

Stone

Using one of our Knight Tile Stone products, **ST14 Cumbrian Stone**



Tiles can be laid directly edge-to-edge for a full stone effect...

Or add a design strip for a grout effect. Either in a brick bond pattern...

Or create a herringbone pattern...

Add a border to complete the look...

Take the example of a kitchen installation

The first decision is: wood or stone?

If your countertops are wood butcher block, you could opt for a wood design in the same shade or a contrasting shade. However, in this case, as there is a lovely mottled cream and grey granite to work with, we felt that stone was the way to go.

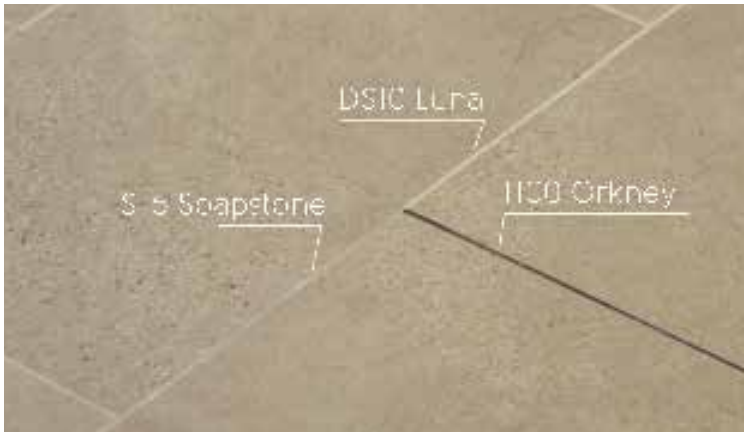
Next we needed to pick our

main floor tile

and for this kitchen we decided on Knight Tile's Portland Stone as it highlighted the robin's egg blue of the cabinets and the grey and black specks in the countertop. Visually, the rectangular shape helps to make the space look wider.

Once the main floor is chosen you can then start the fun part of choosing your

design components.



As this is a stone design, we first considered whether or not we wanted to add a strip. You can go without, however a strip makes more of a statement so we definitely wanted one.

We narrowed it down to three:
ST5 Soapstone, T100 Orkney and DS10 Luna.

We decided on DS10 as it is smooth with minimal texture and the white gives a clean and minimalistic finish to the floor.

But for this floor we went for a brick laid effect to add more visual interest in the space.

You could lay the floor straight with the strip.

Watch the accompanying video at www.karndean.com/identity

Now this floor could be finished, but...

we weren't quite done yet!

We offer ready made borders that go perfectly with these tiles.

With three borders to choose from, we opted for the Light Mosaic border to keep the space nice and light. It really worked and is the perfect finishing touch to this space.

With Karndean it's not just about laying the floor, but also how you design it.
Just by reading the space and paying attention to detail, it's easy to create a stylish look that is unique to your home.

Karndean in the Kitchen

The kitchen is the hub of the home and without a doubt the room where your floor works hardest. From accidental food and drink spills to the hustle and bustle of rushed mornings, parties and gatherings, your kitchen floor has to put up with a lot. A Karndean floor in your kitchen not only looks great, it's also easy to clean and hygienic.

Karndean in the Bathroom

Karndean Designflooring is warm underfoot and waterproof, making it ideal for your bathroom. With Karndean, you can achieve the look you want but without the practical limitations of natural stone and wood, meaning your bathroom floor will remain in great condition for many, many years to come.

Karndean in the Living Room

A living room is a space with so many different functions. From a quiet, cosy reading space to a place where you can gather with friends to watch the game, your living room needs to be functional, but it also needs to look great and reflect your unique style. A Karndean floor in your living room can help you achieve all this and still make a real statement. Durable yet stylish, let us inspire you...

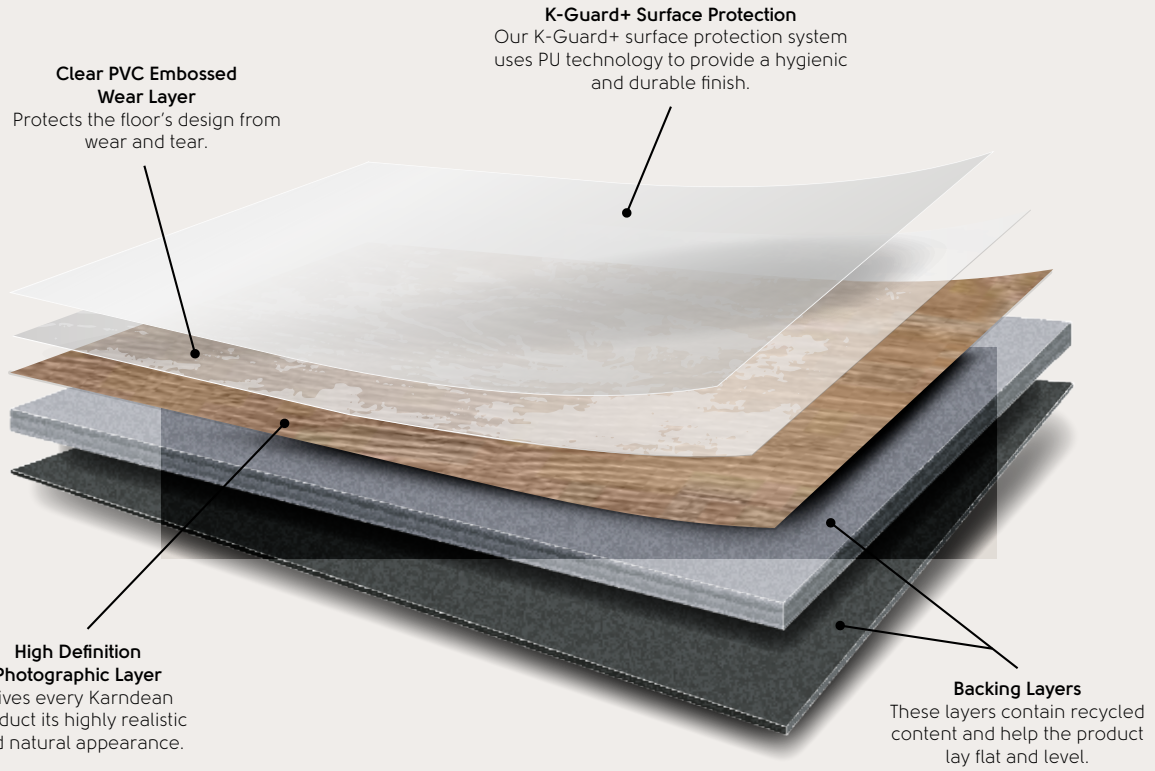
Gluedown ranges

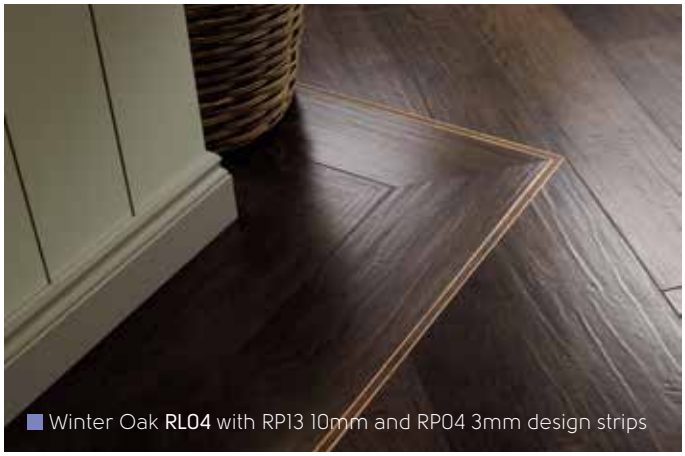
What makes **Karndean Gluedown** special?

At Karndean Designflooring we offer two forms of luxury vinyl tile: a glue down product and a loose lay product.

Both offer unparalleled design, durability and quality although gluedown offers greater flexibility in customization with design strips, borders, laying patterns and custom cut.

The key difference is in the way they are installed. We often get asked whether we would recommend on format over the other, the answer is no, it depends on the area where the floor is to be fitted.





Winter Oak **RL04** with RP13 10mm and RP04 3mm design strips

Sable **CER16** with AF06 3mm grout strip and Davyne border

All the benefits of Karndean...

Realistic
The most realistic designs. Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.

Durable
Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.

Waterproof
Unlike laminate and engineered hardwoods, our floors are impervious to water and will not swell, crack or warp when wet, making them perfect for bathrooms, kitchens, and other busy room in the home.

Low maintenance
A regular sweep and mop with Karndean Clean is all you need to keep your Karndean floor looking great. With Karndean, you also don't have to worry about any sanding, refinishing, staining or varnishing.

Comfortable underfoot
Our products are much warmer and quieter underfoot, giving you the look of real wood and stone but without the drawbacks of cold tiles or clicking shoes.

Hygienic
Unlike carpets, our floors don't hold dust, dirt, pollen or other allergens. Our cleaning products also kill 99.9% of household germs.

Environmentally friendly
We do everything we can to meet and exceed legislation and environmental guidelines. Meaning you can count on the fact you're choosing a safe and environmentally friendly flooring choice.

Compatible with underfloor heating
Karndean flooring is already warm underfoot, but for added warmth, Karndean is perfectly suitable for underfloor heating systems up to 27C.

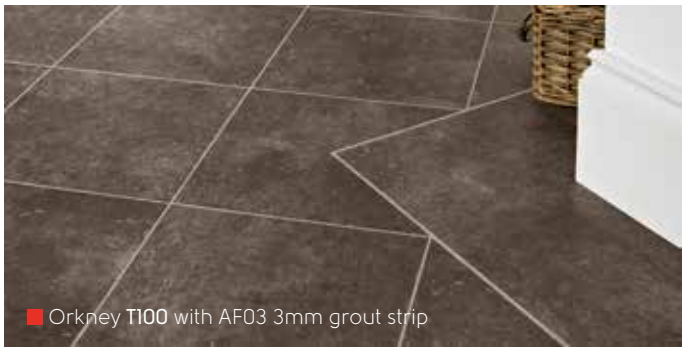
With the added benefits of...

Wide range of designs
Inspired by a breadth of natural woods and stones across the full colour spectrum, you have a choice of over 150 striking designs and formats to choose from across our six gluedown ranges.

Design capabilities
Our gluedown ranges can be personalised with design strips or complementary borders. Gluedown can also be curved and cut to fit into even the most awkward space.

Suitable for any budget
We offer products at different price points throughout our gluedown collection, ranging from our most affordable range, Knight Tile, up to our most premium collection, Art Select.

No expansion gap required
No need for an expansion gap – can lay straight up to the skirting board without removing



Orkney **T100** with AF03 3mm grout strip

Reclaimed Maple VGW71T with RP41 3mm design strip

Auburn Oak **AP02**, see page 28/29.

Full of charm and character, our premium Art Select Wood collection brings the natural beauty of real wood to life in your home.

Through meticulous attention to detail and careful selection of some of the most beautiful and inspiring natural woods, our Art Select Wood collection includes our most intricate designs and realistic embosses. Each plank is handcrafted to reflect the unique grains, knots and textures of natural wood, but unlike real wood, we're able to design a floor that's not only beautiful and realistic, but is also practical.

Everything that a beautiful wood floor should be, and so much more, each of our Art Select Woods tells its own story.

Choosing design components

Design Strips

Design strips are narrow pieces of luxury vinyl tile which can be put between our planks and tiles. They allow you to finish off the design of your floor with some realistic touches, such as adding a strip to create a grout effect between tiles (example on page 140), or between planks for a ship's decking effect (example on page 126).

Design strips are available in a variety of colours and widths. The wider the strip, or bolder the colour, the more impact it will have and the beauty of our strips versus real grout is that they won't stain or fade and they don't have to be sealed.

The choice of colour is completely up to you. You may want to choose a design strip in a colour that matches the wall tiles in your bathroom, for example, to help tie in elements that are already in your room to your new floor. Alternatively, you could choose a colour which helps the overall look of your floor feel either more contemporary or more traditional, enhancing the design of the product you've chosen.

Decorative Borders

We offer a wide variety of border designs in a selection of colours. These designs often feature two colours, one in the same as the main floor you've chosen, which acts as the background of the design, and another contrasting colour which is used in the main pattern. We also have a new border design; Accent, which is made from just one product, playing with texture and bevels rather than colour, for a more seamless, contemporary look.

Some products have multiple borders available, so use the colourful range key and product code listings on the following pages to discover all of your options.

Using design strips to create a border is also a popular way to frame your room. Use three or more strips to create a tramline border (example on page 80) or keep it simple by using just one strip as a keyline border (example on page 137). Our brochure has examples throughout of how design strips can be used by themselves or in multiples to add a border around the room.

Don't worry if you can't find a pre-designed border to match your chosen floor; we also offer a custom design service if you would like a design in a colour not shown.

Features

We also offer three pre-designed features that can be combined with the majority of our floors to add a statement centerpiece to any room. See page 146 for details.

Your guide to design strips

Compatible with...

These design strips are available for use with Art Select*, Da Vinci* and Van Gogh in 3mm, 5mm and 10mm widths.

Cotswold SS6

Scandinavian Beech RP04

We offer a range of design extras to allow you to add your own Designflooring inspiration to your floor. Throughout this brochure you will find examples of ways to use design strips, borders and features to help create your own unique space.

This fold-out guide allows you to browse the brochure and view available design options at the same time, to help you decide which design strip and/or border will work best for you.

Some of our products are only available with certain design strips. This is because our products come in different thicknesses, so you need a design strip which matches the depth of the product.

The colourful key above each section of the fold-out refers to the product range the strips are available in. To find out if the product you are looking at will work with the design strip, match the colour of the range logo on the product page to the icon next to the design strip.

For more information and guidance about the numerous design options you can add to your space, or our custom design service, please speak to your nearest retailer.

Visit www.karndean.com/findaretailer and enter your city or town, or call our team at 1800 331 170.

Tips

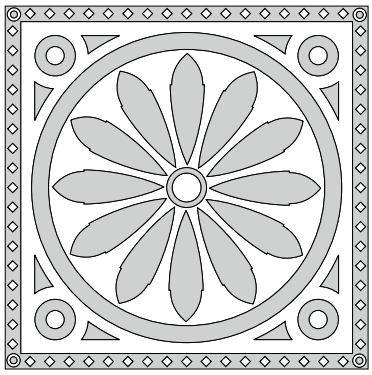
- Lay planks on a 45 degree angle, or tiles in a diamond formation, to make narrow spaces such as hallways or bathrooms feel wider.
- Choose a contrasting strip colour to make the design of the product stand out.
- For more of a subtle addition, use a design strip in a similar colour to the main floor, but play around with laying patterns, letting design rather than colour become the feature.
- Borders don't have to just go around the edge of a room. Try using them in a large space or hallway to create the effect of a rug, with the border acting as the edge of the rug, or by placing it around a feature in the room, such as a kitchen island.

Designflooring components

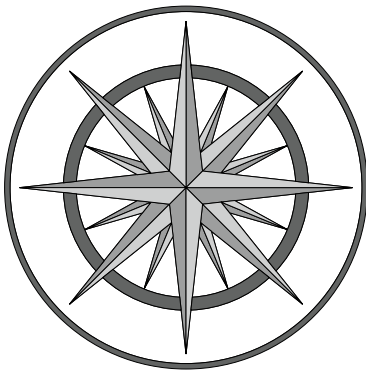
(Fold-out guide)

Your guide to design features

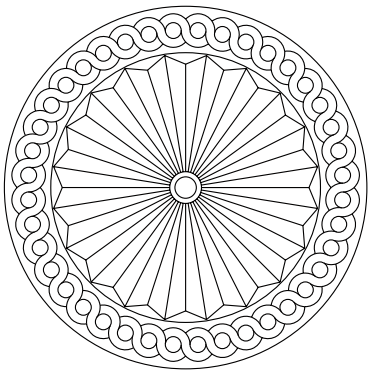
1: Pick your favourite from our standard feature designs



Cartwheel with border



Star



Nexus

2: Choose your own colours

We recommend you make the background colour of your chosen feature the same as your floor, then choose remaining colours to coordinate with the finishes in your room.

3: Decide on a size

You can select the size of your feature to fit perfectly into any shape of room. Our features come in a standard 3ft size, but can be scaled up or down to suit. Talk to your local retailer who can advise you on getting the right size for your space.

Looking for a custom design?

If you're looking for something a little bit different, you can design your own unique feature. Take a sketch of your idea to your nearest retailer for help creating a truly custom floor for your home.

■ Pearl Oak **LLP306**, see page 155.

Karndean LooseLay

Providence **LLP108**, see page 163.

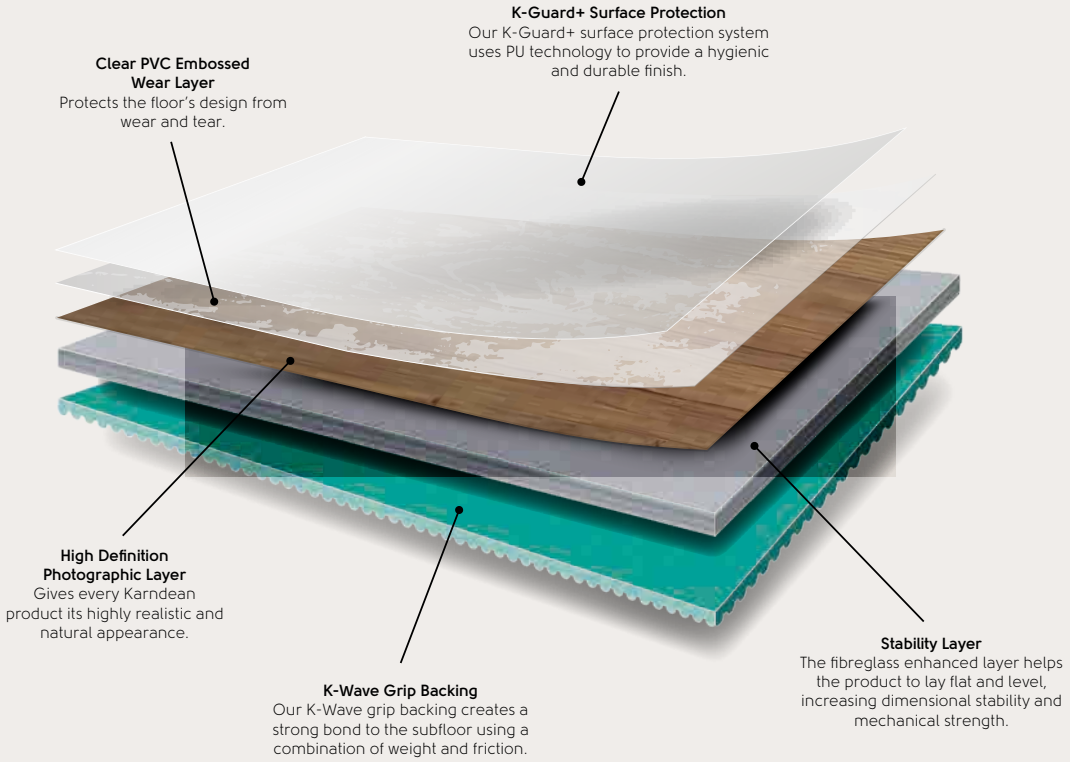
Our Karndean LooseLay wood collection features a wide-ranging palette, such as the distressed, grey hues of Hudson, the deep chocolate tones of Dover and the vibrant copper tones of Winchester. Choose from traditional oak looks, contemporary blends and exotic species, all with our K-Wave friction grip backing that makes Karndean LooseLay unique.

Karndean LooseLay **Wood**

Why **Karndean LooseLay?**

Karndean LooseLay is a format of luxury vinyl flooring featuring our K-Wave friction grip backing that holds the product in place.

Boasting the realistic designs and grain details customers expect from Karndean, LooseLay is available in large scale wood look planks and stone look tiles and can help you create a look that works in almost any space. What's more, it's easy to install and can be laid over most existing hard floors. Oh, and it's 100% recyclable!



All the benefits of Karndean with the added benefits of...

Quick and easy to install

All you need is a sound, smooth, dry and dust free subfloor. Karndean LooseLay can be fitted over most existing hard floors*.

Individually replaceable

Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.

Comfortable underfoot

Our products are softer and warmer underfoot than natural wood and stone flooring. Additional cushioning in the backing helps make the product more comfortable underfoot.

Acoustic qualities

Karndean LooseLay is perfect for projects where you want to reduce noise levels in the room below, such as playrooms, bedrooms and garage/loft conversions without the need for underlay.

* Adhesive may be required for some applications, please refer to installation instructions.

Karndean LooseLay

Longboard

Featuring Australian Woods

LooseLay Longboard is available in our largest plank sizes to date. At 1500mm, Longboard is even quicker to install and makes a real impact in large spaces. Featuring 3 Australian woods.....

Tasmanian Oak

Distinctively Australian, Tasmanian "oak" actually refers to hardwood that originates from eucalypti timbers sourced from Tasmania. The original boards were sourced from lumber yards in South Eastern Australia.

Tasmanian Oak **LLP312**

Blackbutt

A quintessential Australian hardwood that takes its name from the lower half of the tree's trunk which is blackened by the fierce forest fires that both destroy, and then renew, the Australian environment.

Embered Blackbutt **LLP314**

Spotted Gum

The characteristics of the tree makes its planks easily identifiable. The slender trunks have smooth bark which is shed in patches and gives it the spotted appearance.

Lemon Spotted Gum **LLP317**

Environmental Responsibility

Environmental Responsibility

Here at Karndean, we find our inspiration in the beauty of the natural world and feel passionate about bringing this into every product we create, and in order to keep our environment protected we do everything we can to continuously improve our manufacturing processes to ensure sustainability and best value. We've always aimed to make stylish and practical floorcoverings with the lowest possible impact on the environment, and have never had to compromise on quality or performance in order to do so.

All of our products are manufactured in factories certified to ISO 14001 Environmental Management and ISO 9001 Quality Management international standards. Our approach is based on the use of recycled materials in our products and ensuring that the finished product is also 100% recyclable. Every bit of our manufacturing waste is recycled in a closed-loop process. In fact, when our own factories do not have enough waste to use, we buy in waste from other factories. The manufacturing polymer used in our products also requires significantly less energy than other plastics.

GreenStar GreenTag™ Certified

For additional peace of mind, our designflooring products are fully certified to Global GreenTag™, which means that virtually all of our tiles and planks have been independently assessed and certified to contribute EcoPOINTS towards GreenStar building projects.

Assessment is based on a life cycle approach and ensures compliance with low omitting volatile organic compounds (VOC) and indoor environmental air quality.

For more information or to download a copy of our GreenTag™ certificates, simply visit **www.globalgreentag.com**

Transferable Purchase Warranty

If you purchased your Karndean Designflooring through a Karndean Retail Partner your warranty will have the added benefit of it being transferable. This means that if you sell your house within your guarantee period, you can pass the warranty on to the new owners.

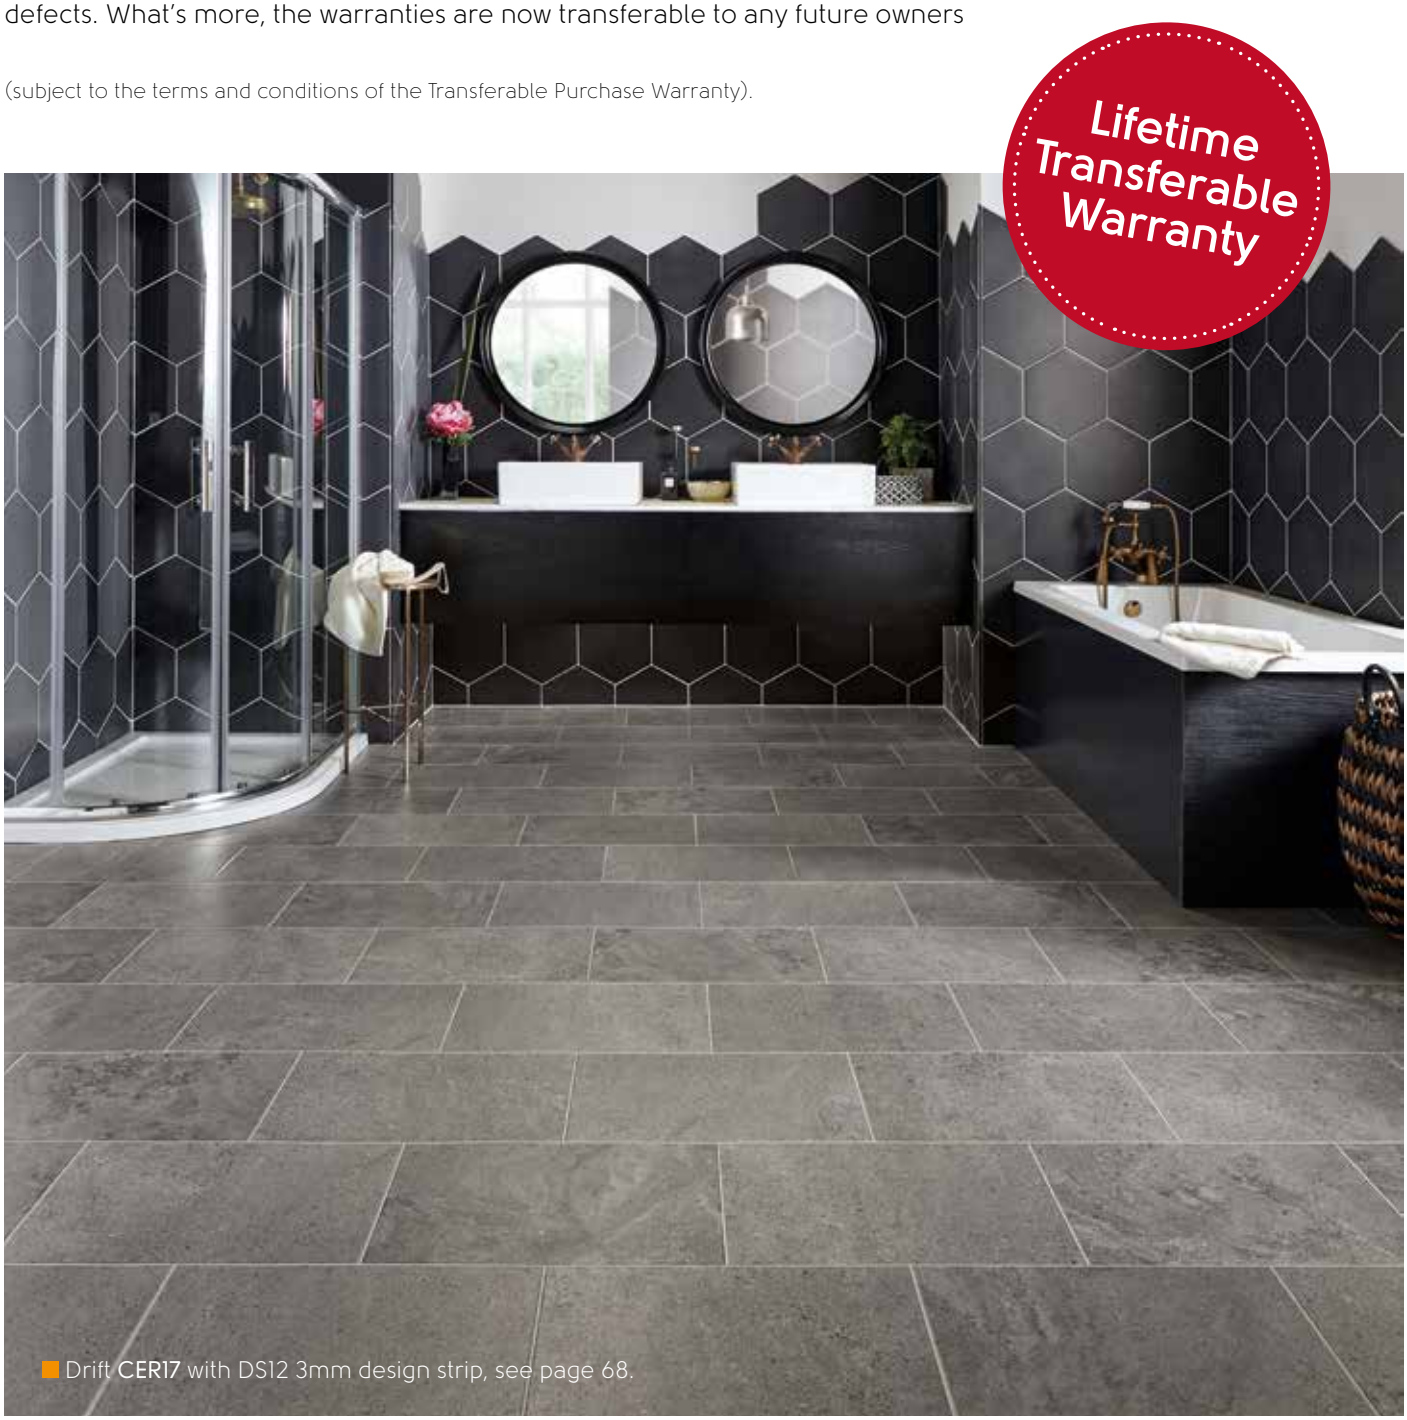
To qualify for a transferable warranty, you must:

- Adhere to the terms and conditions outlined in the Purchase Warranty
- Purchase from one of our retail partners and they will provide us with your email address to enable us to send you your transferable warranty

For more information or to obtain your Purchase Warranty, please speak with your local flooring retailer or contact our **Customer Service Team**.

The lifetime residential warranty is defined as 35 years and protects against product wear out and manufacturing defects. What's more, the warranties are now transferable to any future owners

(subject to the terms and conditions of the Transferable Purchase Warranty).



Drift **CER17** with DS12 3mm design strip, see page 68.

Cleaning and maintaining your Karndean floor

Karndean Designflooring is hardwearing and easy to look after. Our enhanced surface treatment helps protect against everyday wear, spills and scuffs. This makes it easier and more environmentally friendly to clean and maintain, giving you peace of mind that your Karndean floor will look great for years to come.

We have a dedicated section on the website with videos which explain how best to look after your Karndean floor and covers lots of frequently asked questions from our customers. Visit **www.karndean.com/cleaning** for more information.

We also have our own Floor Care Kits that you can order from your local retailers including everything you need for a simple cleaning routine.

Inside your Floor Care Kit

Regular cleaning with a pH neutral cleaner such as Karndean Clean will help keep your floor at its best.

Over time you may want to treat your floor to some extra care. We recommend every six to twelve months, depending on wear, that you strip and refresh your floor using Karndean Remove and Karndean Refresh, to further enhance its look and durability.

- Follow our boards on Pinterest **karndeanfloors**
- For interior ideas follow us on Houzz **karndeandesignflooring**

Colour & Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world and just like variation in colour and detail is part of the beauty of nature, it is also a feature of some of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask your retailer to show you a larger sample of the product.

We love developing new ideas and improving our existing designs. Part of our policy of continuous improvement means that we may add, change or withdraw products from our ranges. We hate to disappoint and will always try to work with you to find an alternative design that you love so much.

Karndean Designflooring owns all their designs and are protected by copyright.

Why not visit our **Design Showroom?**

At our headquarters, conveniently located just off the Eastlink & Monash freeways, we always have the latest products on display, with over 500m^2 of ideas and designs to inspire you.

As well as seeing the full range of **Karndean Designflooring**, you can speak to our trained advisors and use our design tables to try out your design ideas. We even have a children's play area if you want to bring them along on your visit.

Opening times:

Australia

Monday-Friday	9am - 5pm
Saturday	10am - 4pm
Sunday	Closed

The showroom will be closed on all Victorian and national public holidays.

For opening times between Christmas and New Year please call **1800 331 170**

New Zealand

With a wide network of Karndean Retail Partners across New Zealand, we are bound to have one near you. Why not find your local retailer now by visiting **www.karndean.com /findaretailer**
