Australian Manufacturer of Quality Carpets

**Australian  
Made  
Carpets**

ec.group is an Australian carpet manufacturer founded on design, innovation and colour.

Formerly known as edwardstowncarpets and established in 1963, ec.group has an established and respected standing in the carpet industry, recognised both nationally and internationally. For over 50 years ec.group strives to be the carpet brand of choice for designers, architects and homemakers by understanding their needs better and delivering innovative, high quality solutions to meet those needs. This is done through transformative design, brilliance and diversity of colour, innovative thinking and quality of fabrication.

**Our passion is carpet; giving people a flexible and creative tool to transform their experience of a space.**

# The Benefits of Using Carpet

## **Visual Appeal**

A vast choice of colours, patterns and textures. The ultimate living experience.

## **User Experience**

Soft underfoot comfort with a cushioning feel.

## **Acoustics**

Reduce ambient and environmental noises.

## **Cleaner Air**

Carpet filters the air therefore reducing airborne dust particles.

## **User Protection**

Impact protection against falls compared to hard flooring. The hazards of tripping and slipping is also reduced compared to rugs.

## **Thermal Properties**

Insulation benefits to keep you cooler in summer and warmer in winter

## **Cost Efficient**

In comparison to timber flooring and tiling, wall-to-wall carpet is fast and easy to install, therefore allowing for greater cost savings.

## **Easier to Maintain**

Wall-to-wall carpet is easier to vacuum compared to rugs without the hassles of major maintenance, such as periodic varnishing of timber flooring.

# The Natural Choice for Style and Sustainability

**Wool is the natural choice** when sustainability, comfort, performance and design is at the forefront of your selection.

While there are some glamorous sounding "eco-bling" fibres on the market - if you take a look past the green-washing you'll find that the majority of the content is synthetic and the warranties are less impressive once you read the fine print.

For a solution that is ethical and environmentally friendly, choose wool.

# THE BENEFITS OF WOOL CARPET

Wool is a 100% **sustainable, renewable and biodegradable** fibre.

**Highly durable** and resistant to crushing and soiling.

**Naturally flame resistant** qualities means that wool is far less combustible.

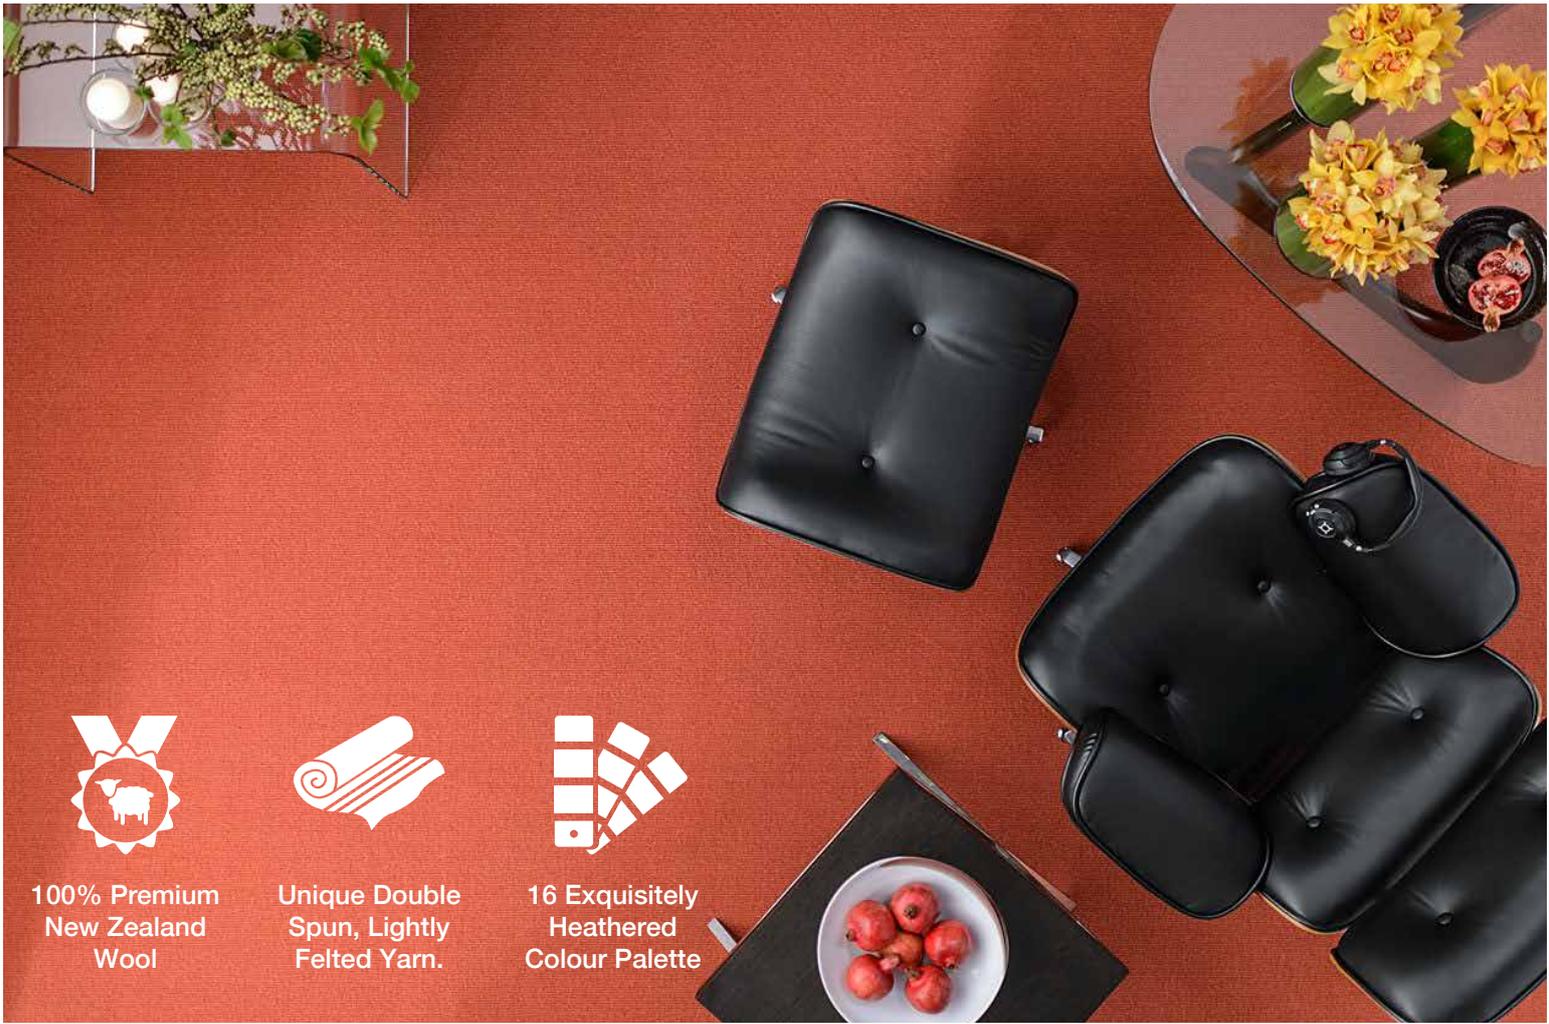

**High thermal resistance**, keeping you cooler in summer and warmer in winter.

Certified **low VOC** for cleaner indoor air quality.

The lustre and gentle light reflection characteristics of wool delivers a **soft and comfortable** appearance offering a highly elegant backdrop for your home.

Wool fibres consume only a fraction of the energy used to produce synthetic fibres.

## Features and Benefits

### Ultra-soft premium New Zealand wool.

Made with pure New Zealand wool—considered the world’s finest for carpets—Garden has a remarkably soft finish, adding an unmistakable sense of luxury to any interior.

### Uniquely double-spun and lightly-felted.

Garden’s wool fibres are processed using an innovative technique developed, and exclusively applied, by ec.group. Rather than standard twisting, the fibres are double-spun and locked together by light felting. This increases strength, creates subtle variations in thickness for a natural texture, and produces Garden’s incredible softness.

### Retains incredible durability.

Complementing its luxurious feel, Garden’s long-fibre, heavy-weight 45oz pile achieves a rating of extra heavy duty for domestic applications, and will cope with years of heavy traffic.

### Highly versatile design.

Garden’s linear ‘ribbed’ appearance makes joining easy and provides an non-geometric pattern to enhance almost any interior theme. It can also be used to make a beautiful rug to complement hard flooring.

### Exquisitely heathered palette.

Garden’s selection of 16 characterful heathered colours—8 timeless neutrals and 8 hard-to-find highlights—have been carefully designed by colour experts to meet the needs and tastes of interior designers, architects and sophisticated homeowners.

## Specifications

<b>Description</b>	Level Tufted Loop Pile
<b>Pile Content</b>	100% Double Spun, Lightly Felted Pure New Zealand Wool
<b>Gauge</b>	3/16”
<b>Total Pile Weight</b>	1530g/m <sup>2</sup> (45oz/yd <sup>2</sup> )
<b>Pile Height</b>	8.0mm ± 1mm
<b>Primary Backing</b>	Woven polypropylene
<b>Secondary Backing</b>	Blue Stripe Synthetic Backing
<b>Fire Rating</b> (Conv. Install)	CHF Mean Result 7.6kw/m <sup>2</sup> Smoke Value 52% min
<b>Traffic Class</b> ACCS Classification	Extra Heavy Duty 2 Residential (6*) Heavy Duty Contract (3*)
<b>Guarantees</b> *conditions apply	7 year commercial* 15 year residential*
<b>Pattern Repeat</b>	Not applicable
<b>Environmental</b>	Quality Assured to ISO 9001 & Environmental Management System 14001.

Garden complies with Australian standards on low volatile organic compounds and air emissions.

**Solid shade** carpets may exhibit colour streaking. **Chair mats** are recommended under castor chairs to preserve appearance and avoid premature wear. Due to the unique manufacturing process, **natural variations** in the thickness of the yarn may appear as lines along the surface of the carpet. While due care has been taken in the manufacturing process of this carpet, **soiling may show more readily** due to the lightness or brightness of the colours. Additional maintenance may be required. Consult a cleaning professional for advice. **Seam sealer** is a mandatory requirement on all carpet seams.

## Features and Benefits

### 3-ply premium New Zealand wool.

Made with pure New Zealand wool—considered the world’s finest for carpets—Studio is constructed with a clean and crisp tailored-loop pile, designed to highlight the range’s stunning colour suite.

### Long-lasting performance.

Rated extra heavy duty for both domestic and commercial applications, Studio’s long-fibre, heavy-weight 44oz pile will maintain its luxurious feel throughout years of crushing under furniture and foot.

### A kaleidoscope of colours.

Studio comes in a carefully considered palette of no less than 16 contemporary, yet timeless colours, including many hard-to-find hues for distinctive feature areas.

### Highly versatile design.

Studio’s linear ‘ribbed’ appearance is suitable for any living area. This is complemented by its non-geometric pattern, which enables it to enhance almost any interior theme.

### Keeps soiling secret.

When accidents occur, Studio’s beautiful opaque low shine will help to prevent soiling catching the eye before the next vacuum.

## Features and Benefits

### Unique natural look.

Featuring durable, 3-ply z-twist yarn made with a blend of several different varieties of pure wool, Residence contributes refined detail and interest to any interior, with a uniquely natural hairy look and feel.

### Superior multi-level acoustics.

Residence performs exceptionally well in reducing noise transmission between floors in multi-level dwellings and developments, with Ln,w + Ci values that meet the Builders Code of Australia requirements for such buildings.

### Highly flexible design.

Residence's non-directional geometric pattern has been carefully designed to avoid potential clashes with patterned furniture, so can enhance almost any interior theme.

### Earthy, heathered palette.

Residence's selection of 16 rich, heathered colours—including options for subtle, earthy highlights—contribute to the range's outstanding interior design versatility.

### Keeps soiling secret.

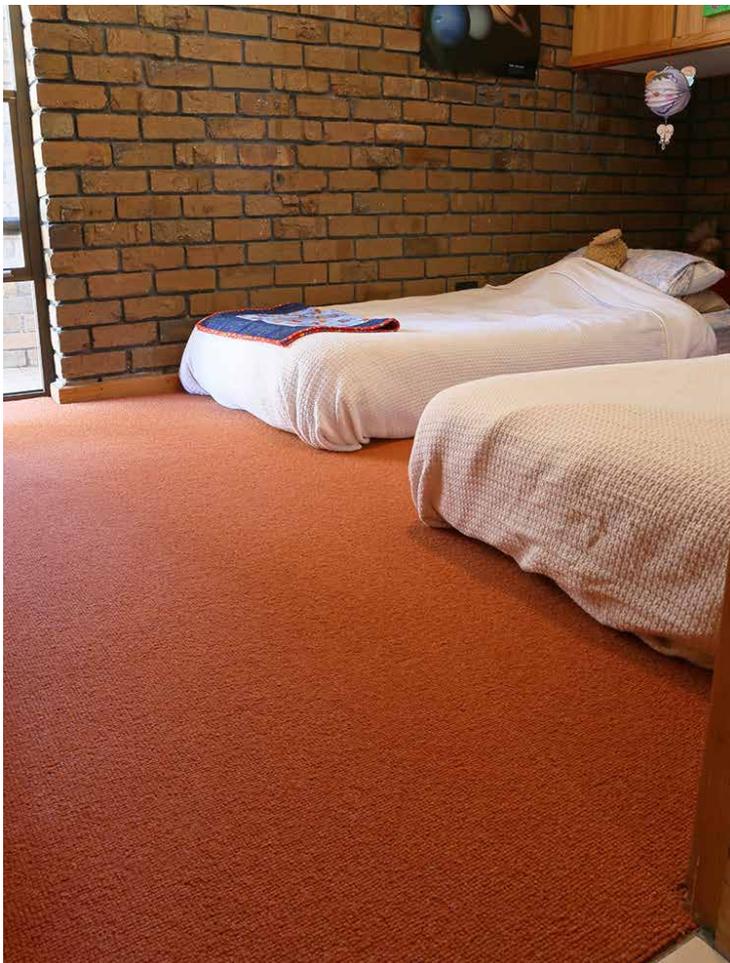

When accidents occur, Residence's heathering and beautiful opaque low shine will help to prevent soiling catching the eye before the next vacuum.

## Features and Benefits

### A Berber for now.

Great Sandy succeeds in delivering an entirely modern Berber hybrid, combining sophisticated style with rustic comfort and feel. Its subtly-dyed woollen 'slubs' blend seamlessly with lightly heathered backgrounds to create a uniquely warm, contemporary look.

### Premium 2-ply pure wool.

Great Sandy is made with a blend of premium quality international wools, sourced from some of the world's finest wool farming districts.

### Versatile, highly-textural appearance.

Great Sandy's distinctively textural, non-geometric pattern creates a pleasing point of visual and tactile interest, and enhances almost any modern interior design theme.

### Modern, earthy palette.

Great Sandy's carefully constructed blend of practical, earthy colours provides a subtly modern take on the classic berber style, yet remains sufficiently neutral to complement a huge range of soft furnishings and other natural floorings.

### Keeps soiling secret.

When accidents occur, Great Sandy's texture, light flecks of colour, and beautiful opaque low shine does an outstanding job of hiding any soiling between vacuums, making it an ideal choice for families.

### Environmental

Quality Assured to ISO 9001 & Environmental Management System 14001.

Great Sandy complies with Australian standards on low volatile organic compounds and air emissions.

**Solid shade** carpets may exhibit colour streaking. **Chair mats** are recommended under castor chairs to preserve appearance and avoid premature wear. **Maintenance** The use of a quality vacuum cleaner with turbo or power head adjusted according to the pile height is strongly recommended. **Insect Treatment** All natural fibres are protected with an insect resistant treatment to prevent damage caused by insects. The protection lifespan of this treatment cannot be guaranteed. **Seam sealer** is a mandatory requirement on all carpet seams.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

## Features and Benefits

### Classic, iconic Berber.

Mackenzie offers the warmth and comfort of perhaps the most timeless of all carpet styles—Berber. Its richly dyed woollen ‘slubs’ blend seamlessly with heathered backgrounds to create unmistakable character.

### Premium 2-ply New Zealand wool.

Made with the world’s finest carpet wool farmed and processed in New Zealand, Mackenzie has a luxuriously soft finish ideally suited to family life.

### Retains incredible durability.

Despite its luxurious feel, Mackenzie’s is rated extra heavy duty for domestic applications. The colour highlights in Mackenzie also offers excellent resilience against soil hiding.

### Highly versatile design.

Mackenzie’s linear ‘ribbed’ appearance allows for easy joining, making it suitable for any living area. This is complemented by a non-geometric pattern that will enhance any interior theme.

### Sophisticated, timeless palette.

Mackenzie’s selection of classic neutral colours have been carefully designed to provide a finish that’s every bit as elegant as it is practical and versatile.

### Care-ready fire retardance.

Mackenzie’s high levels of fire retardance meet the requirements for both aged care and patient care through direct-stick application. It’s even rated for use in fire exits.

# Wall-to-Wall Carpets

## featuring **BlueStripe** Backing

### The Superior Carpet Backing System.

Superior carpet design is more than what meets the eye.

Often attention is focused on the visual appearance of the top surface pile.

The carpet backing is equally as important and often overlooked in the performance and durability of a carpet.

The **ec.group** Blue Stripe backing system is designed to last longer than other carpet backings on the market.

**Designed for durability and longevity**, the Blue Stripe backing ensures a greater return for your carpet flooring investment. This includes -

#### Highly Durable Construction

The **ec.group** Blue Stripe backing is constructed using a bonding agent that is rich in latex for a stronger and more flexible finish.

#### Low Chalk

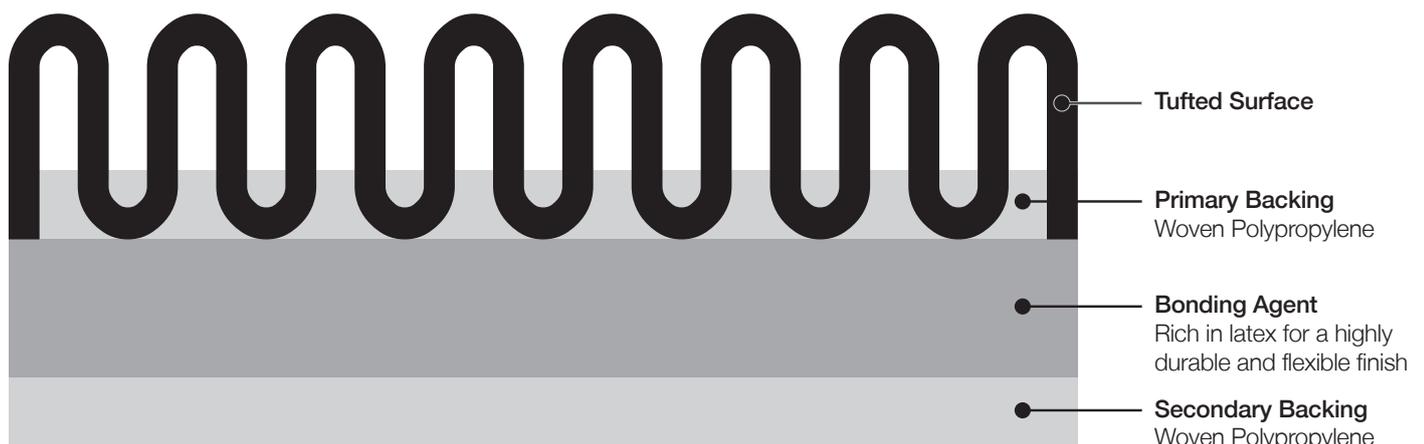

Other carpet backings have a high chalk content that can structurally weaken the carpet. The **ec.group** Blue Stripe backing has a low chalk content that will not break down over time.

#### Breathability

Allowing for moisture to transfer between the subfloor and atmosphere to help prevent the risk of bacteria growth in the subfloor.

#### Usability

Blue Stripe backing is easy to handle for greater mobility during installation without compromising on dimensional stability.

**SOLUT**

**DYED**

**CARPE**

TION

NYLON

ETS

# THE BENEFITS OF SOLUTION DYED NYLON CARPET

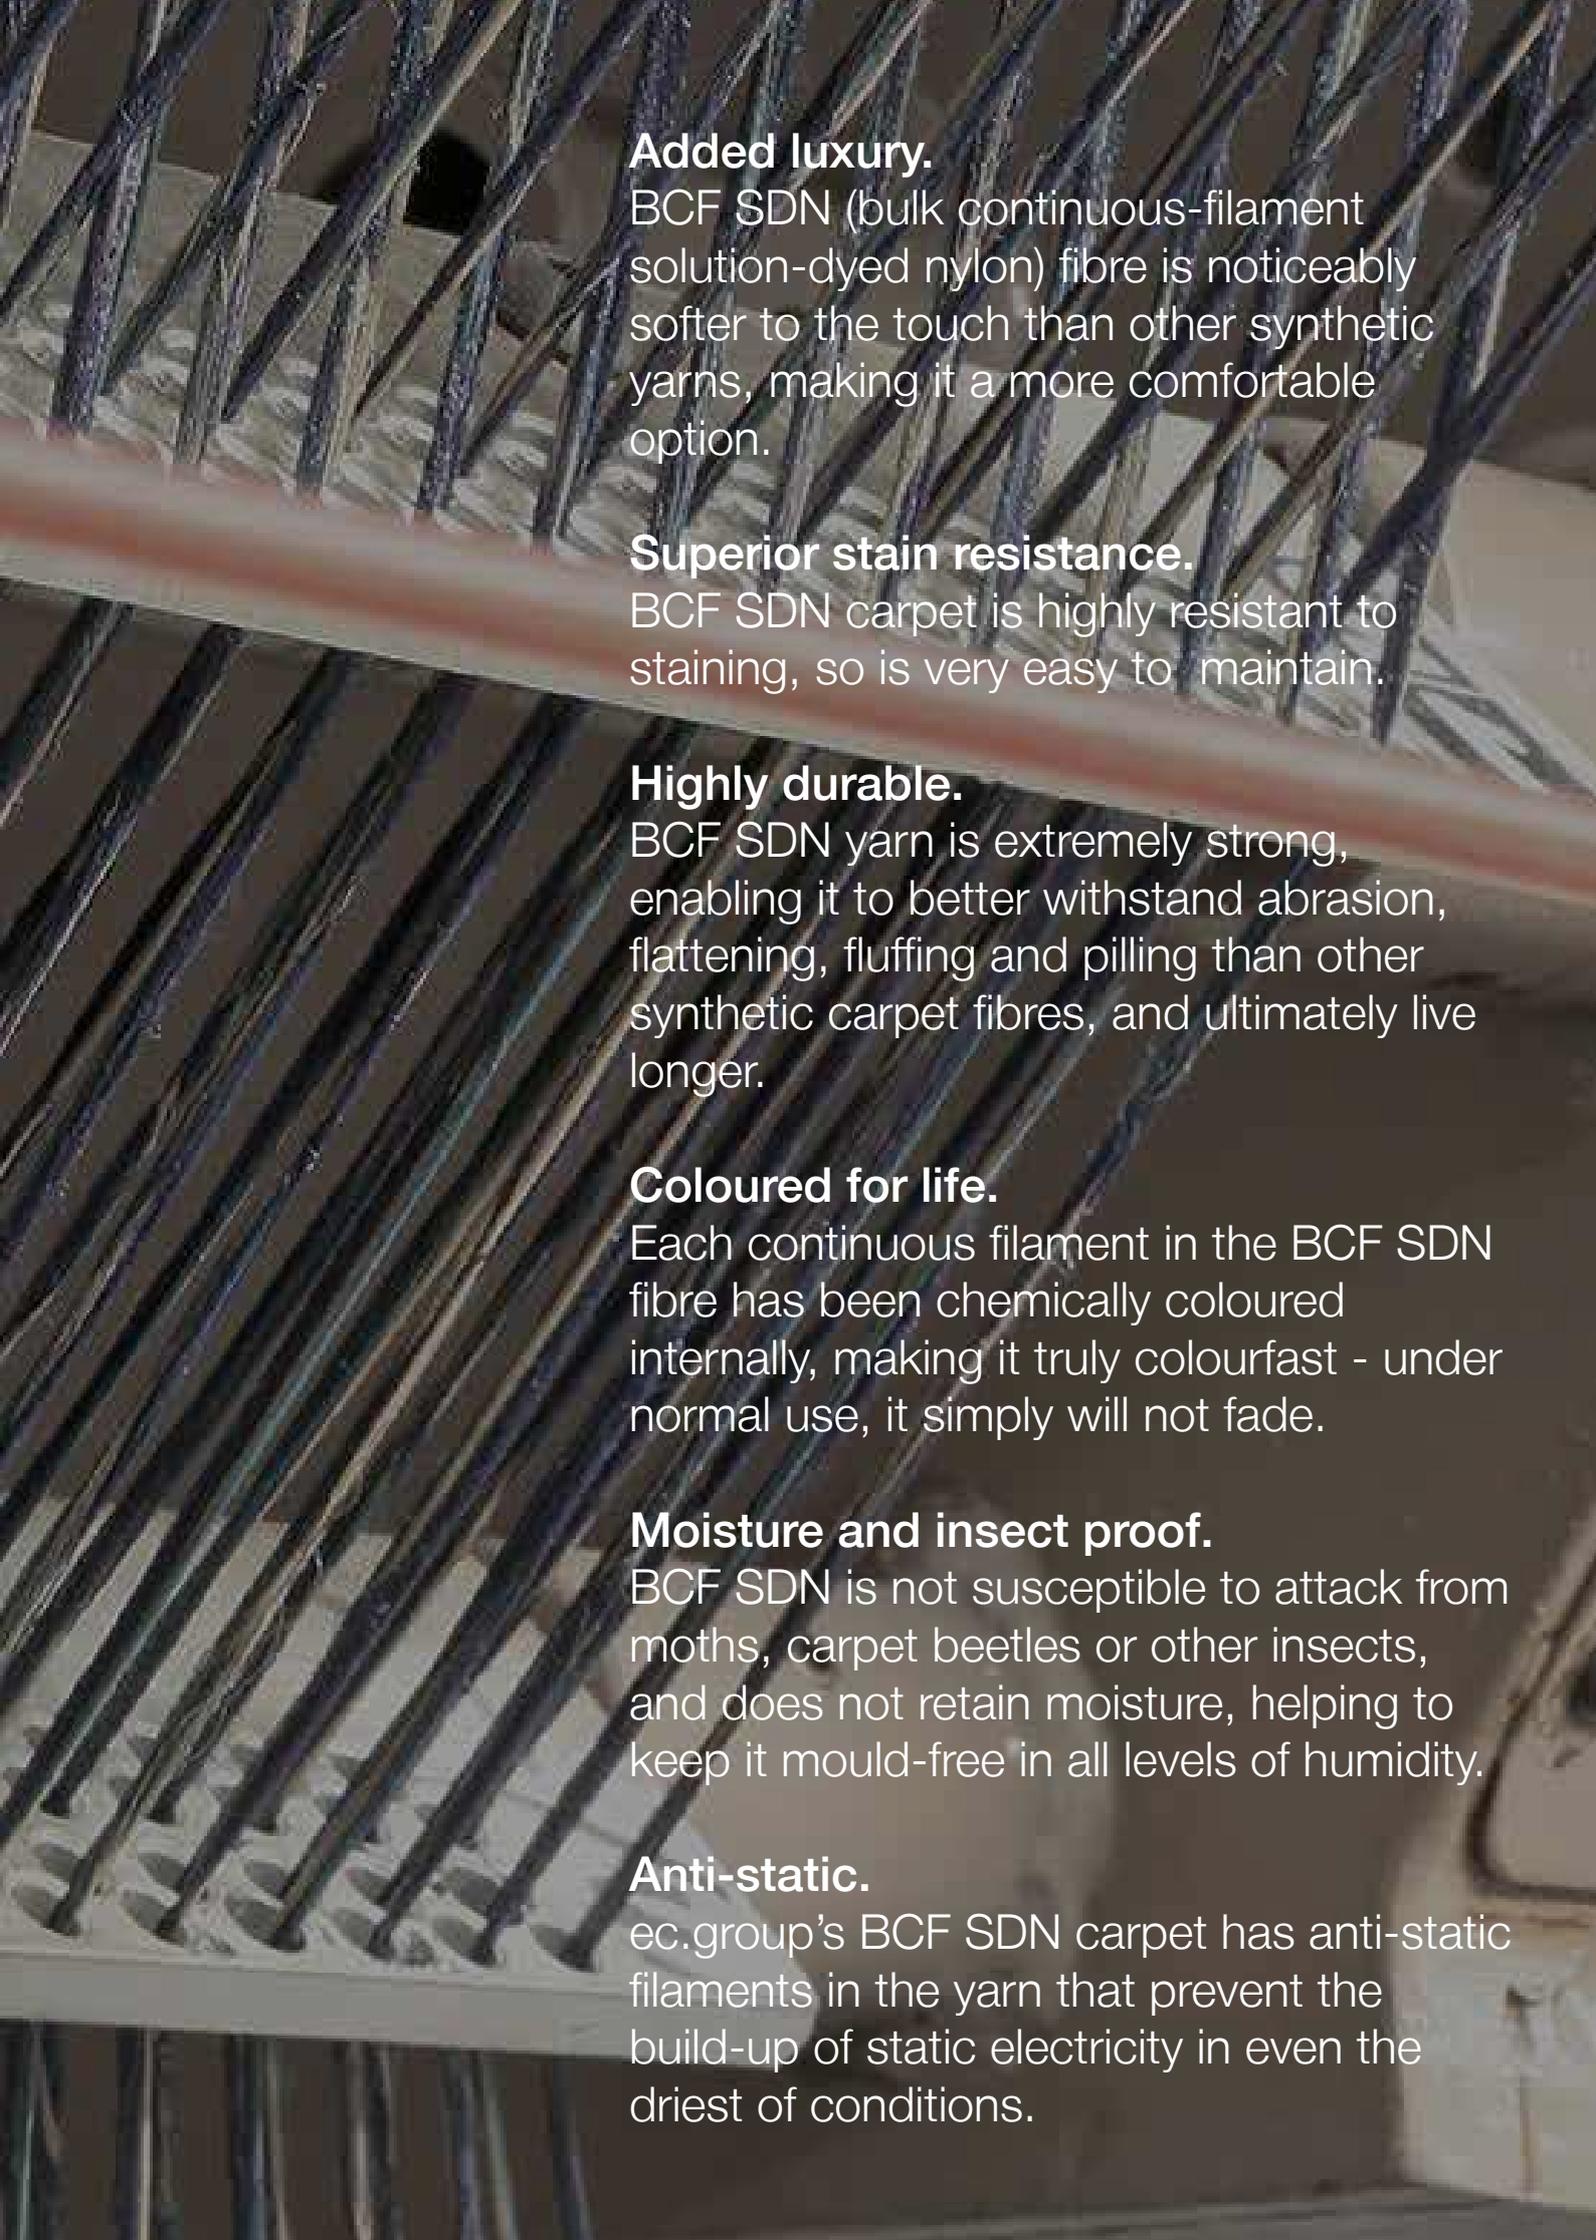

**Stronger. Less 'fluffing'. Easier to maintain.**

ec.group's bulk continuous-filament (BCF) solution-dyed nylon (SDN) carpets are superior to traditionally manufactured nylon in every way.

Many staple yarns produced in cut lengths are then spun together and dyed—a method that leaves them prone to staining, breakages and fluffing.

Our BCF SDN, however, is made of continuous filaments of high-strength nylon fibre that have been chemically coloured inside the filament prior to being manufactured into carpet yarn.

This has not only overcome all prior weaknesses, but added numerous contemporary advantages.

**Added luxury.**

BCF SDN (bulk continuous-filament solution-dyed nylon) fibre is noticeably softer to the touch than other synthetic yarns, making it a more comfortable option.

**Superior stain resistance.**

BCF SDN carpet is highly resistant to staining, so is very easy to maintain.

**Highly durable.**

BCF SDN yarn is extremely strong, enabling it to better withstand abrasion, flattening, fluffing and pilling than other synthetic carpet fibres, and ultimately live longer.

**Coloured for life.**

Each continuous filament in the BCF SDN fibre has been chemically coloured internally, making it truly colourfast - under normal use, it simply will not fade.

**Moisture and insect proof.**

BCF SDN is not susceptible to attack from moths, carpet beetles or other insects, and does not retain moisture, helping to keep it mould-free in all levels of humidity.

**Anti-static.**

ec.group's BCF SDN carpet has anti-static filaments in the yarn that prevent the build-up of static electricity in even the driest of conditions.

# THE FIBRE DYING PROCESS

## BCF Solution Dyed Nylon Fibre

As used in ec.group Solution Dyed Nylon Carpets

Colour is introduced into the yarn during the extrusion stage. Colour is therefore dyed into the core of the fibre.

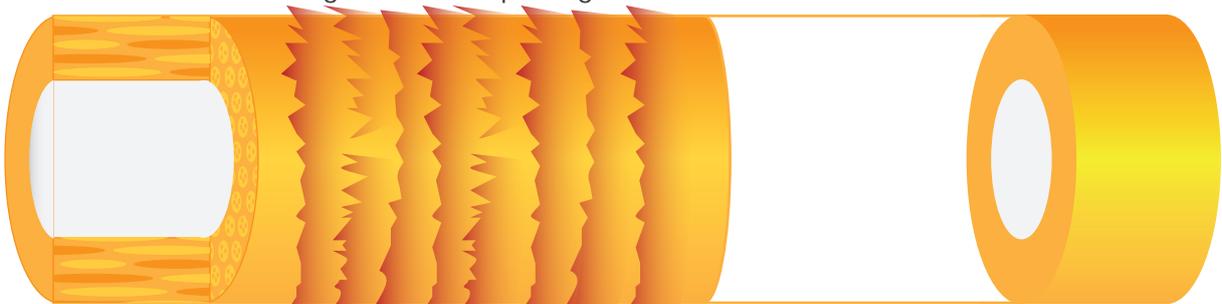

Long continuous fibres for added strength

## Traditionally Dyed Fibre

Colour is dyed into the fibre post manufacturing, thus meaning is it more prone to bleach and UV fade.

Cut length fibres are spun together

## Features and Benefits

### Sophisticated practicality.

Avenue expertly blends the practical benefits you expect from nylon with discerning aesthetic qualities traditionally only associated with natural fibres.

### Rich, organic texture.

Avenue is not only beautiful, but outstandingly effective at concealing soiling.

### Luxurious underfoot.

Avenue's large, tufted-loop pile feels delightful to touch, yet is rated 'extra heavy duty' for residential use, and 'medium duty' for commercial.

### Modern style.

With chicly heathered colours, and geometric patterns, Avenue provides an ideal foundation for contemporary interiors.

### Australian quality.

Designed and manufactured in Australia, Avenue is colourfast, stain resistant, anti-static and fire retardant.

## Features and Benefits

### A touch of wool-like class.

Derwent Valley provides an outstanding combination of high-specification quality and affordability, with a rich texture and subtle heather that strongly, and beautifully, resembles wool.

### Room-expanding design.

Derwent Valley features large and luxurious soft-touch loops arranged in a distinctive sisal pattern that not only pleases the eye, but visually lengthens and widens any space.

### Durable luxury.

Although providing a welcome sense of luxury in bedrooms and living areas, Derwent Valley remains extremely durable to abrasion and flattening. Rated extra heavy duty for residential applications, it will also cope well in highly active areas, such as hallways and rumpus rooms.

### Stylish simplicity.

Derwent Valley's neutral, organic colour palette provides a fantastically flexible foundation for a wide range of modern interior design themes and furnishings.

### Colourfast and made to last.

Designed to retain its aesthetic appeal for years to come, Derwent Valley's colours will not rub off or bleed, and strongly resist fading from sunlight and general wear.

### Easy to maintain.

Derwent Valley's heathered colours do an outstanding job of hiding soiling, but when cleaning is required it couldn't be easier. The carpet strongly resists staining, moisture, mould and insect damage.

## Features and Benefits

### Ultra-resilient.

Outstandingly hard-wearing, Langhorne Hut is the ultimate cross-over product, designed to suit the most demanding of residential and commercial applications.

### Style for modern living.

Langhorne Hut's outstanding durability hasn't come at the expense of style and sophistication. It retains a carefully crafted modern colour palette and understated, woven-look design, enabling it to complement a wide range of interior themes.

### Wheel-friendly.

Castor chairs, trolleys and wheelchairs roll easily over Langhorne Hut's surface, supporting peak workplace productivity and domestic convenience.

### Healthcare impervious backing available.

Take up the option of an **ecare** impervious-backing treatment and Langhorne Hut also becomes an ideal choice for healthcare applications, or any other where subfloor moisture penetration must be prevented.

### Colourfast and made to last.

Designed to retain its aesthetic appeal for years to come, Langhorne Hut's colours will not rub off or bleed, and strongly resist fading from sunlight and general wear.

### Excellent fire retardance.

Meeting all Australian building fire-resistance requirements, Langhorne Hut significantly slows the burning process and reduces smoke levels, providing valuable peace of mind for home and business owners.

## Features and Benefits

### Extra heavy duty.

Serenus can take just about anything likely to be thrown at it. Made from 100% recycled 'Econyl' nylon under an ISO 14000-certified environmental management system, it's graded commercial extra heavy duty.

### From aged care to community spaces.

Designed in conjunction with major interior designers specifying for aged care, Serenus is sufficiently robust to withstand even the most rigorous commercial applications, also including hospitality, hotels, educational institutions and community spaces.

### Healthcare impervious backing available.

Take up the option of an ecare impervious-backing treatment and Serenus also becomes an ideal choice for healthcare applications, or any other where subfloor moisture penetration must be prevented.

### Equally at home in apartments.

Serenus's outstanding durability hasn't come at the expense of contemporary style. It retains a carefully crafted modern colour palette designed to complement a wide range of interior themes, and is pleasantly soft to the touch.

### Zip-proof.

Serenus has been protected against 'zips', or yarn-running, providing valuable peace of mind when edges are bounded to hard flooring.

### Care-ready fire retardance.

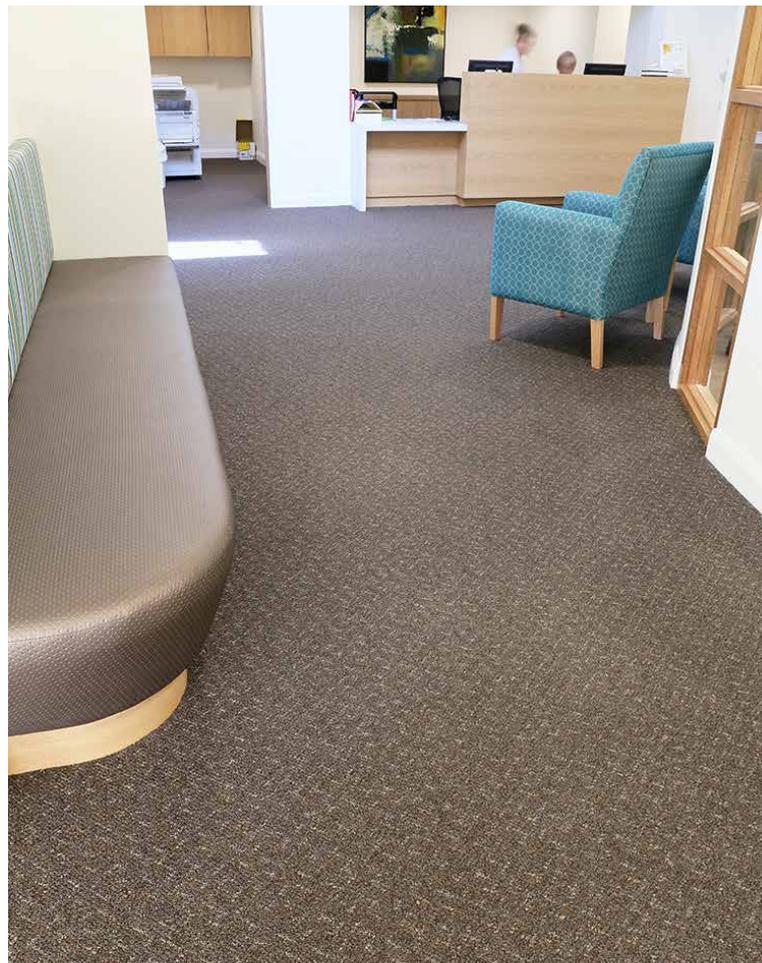

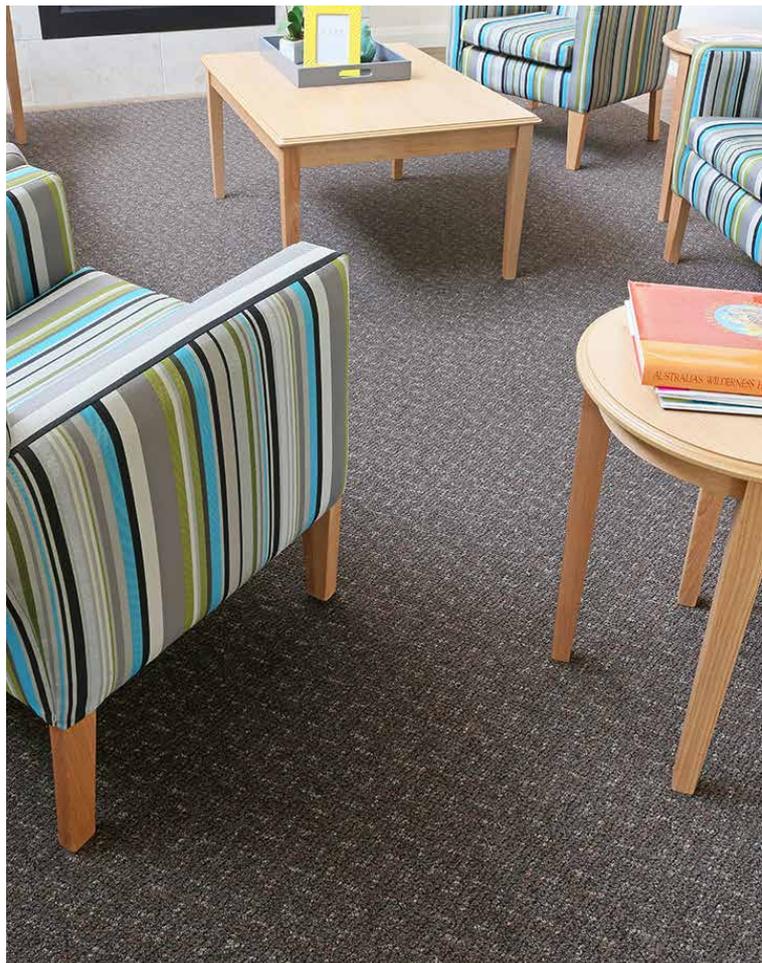

Serenus's high levels of fire retardance meet the requirements for both aged care and patient care through direct-stick application. It's even rated for use in fire exits.

## Features and Benefits

### A touch of class.

Estate raises the bar for premium mid-range nylon carpet, providing an outstanding combination of high-specification quality and affordability.

### Subtle simplicity.

Estate's attractively refined pattern has been carefully designed to complement most contemporary upholstery, curtains and wall coverings.

### Durable luxury.

With delightfully soft, loop pile, Estate provides an understated sense of luxury in bedrooms and living areas, yet its generous-weight solution-dyed nylon remains extremely durable to abrasion and flattening.

### A contemporary canvas.

Estate's neutral colour palette provides a fantastically flexible foundation for a wide range of modern interior design themes.

### Multi-residential ready.

Estate's fire retardant properties conform to the Building Code of Australia's requirements for multi-residential installations, which makes it ideal for low and high-rise developments.

### Colourfast and made to last.

Designed to retain its aesthetic appeal for years to come, Estate's colours will not rub off or bleed, and strongly resist fading from sunlight and general wear.

### Easy to maintain.

Estate is resistant to staining, moisture and mould, not to mention insect-proof.

## Features and Benefits

### A touch of class.

Laneway raises the bar for premium mid-range nylon carpet, providing an outstanding combination of high-specification quality and affordability.

### Room-expanding 'sisal' design.

Laneway's distinctive sisal-like tufting both pleases the eye and—particularly in linear form—can help to visually lengthen or widen any space.

### Durable luxury.

The Laneway tufts provide an understated sense of luxury in bedrooms and living areas, yet their generous-weight solution-dyed nylon remains extremely durable to abrasion and flattening.

### Stylish simplicity.

Laneway's neutral colour palette provides a fantastically flexible foundation for a wide range of modern interior design themes.

### Multi-residential ready.

Laneway's fire retardant properties conform to the Building Code of Australia's requirements for multi-residential installations, which makes it ideal for low and high-rise developments.

### Colourfast and made to last.

Designed to retain its aesthetic appeal for years to come, Laneway's colours will not rub off or bleed, and strongly resist fading from sunlight and general wear.

### Easy to maintain.

Laneway is resistant to staining, moisture and mould, not to mention insect-proof.

## Features and Benefits

### Stylish simplicity.

The modern colour palette of Accentus provides a fantastically flexible foundation for a wide range of interior design themes and furnishings.

### Extra heavy duty.

Accentus can take just about anything likely to be thrown at it. Made from 40% recycled 'Econyl' nylon under an ISO 14000-certified environmental management system, it's graded commercial extra heavy duty.

### Easy to maintain.

The heathered colours of Accentus do an outstanding job of hiding soiling, but when cleaning is required it couldn't be easier. The carpet strongly resists staining, moisture, mould and insect damage.

### Colourfast and made to last.

Designed to retain its aesthetic appeal for years to come, Accentus colours will not rub off or bleed, and strongly resist fading from sunlight and general wear.

### Australian quality.

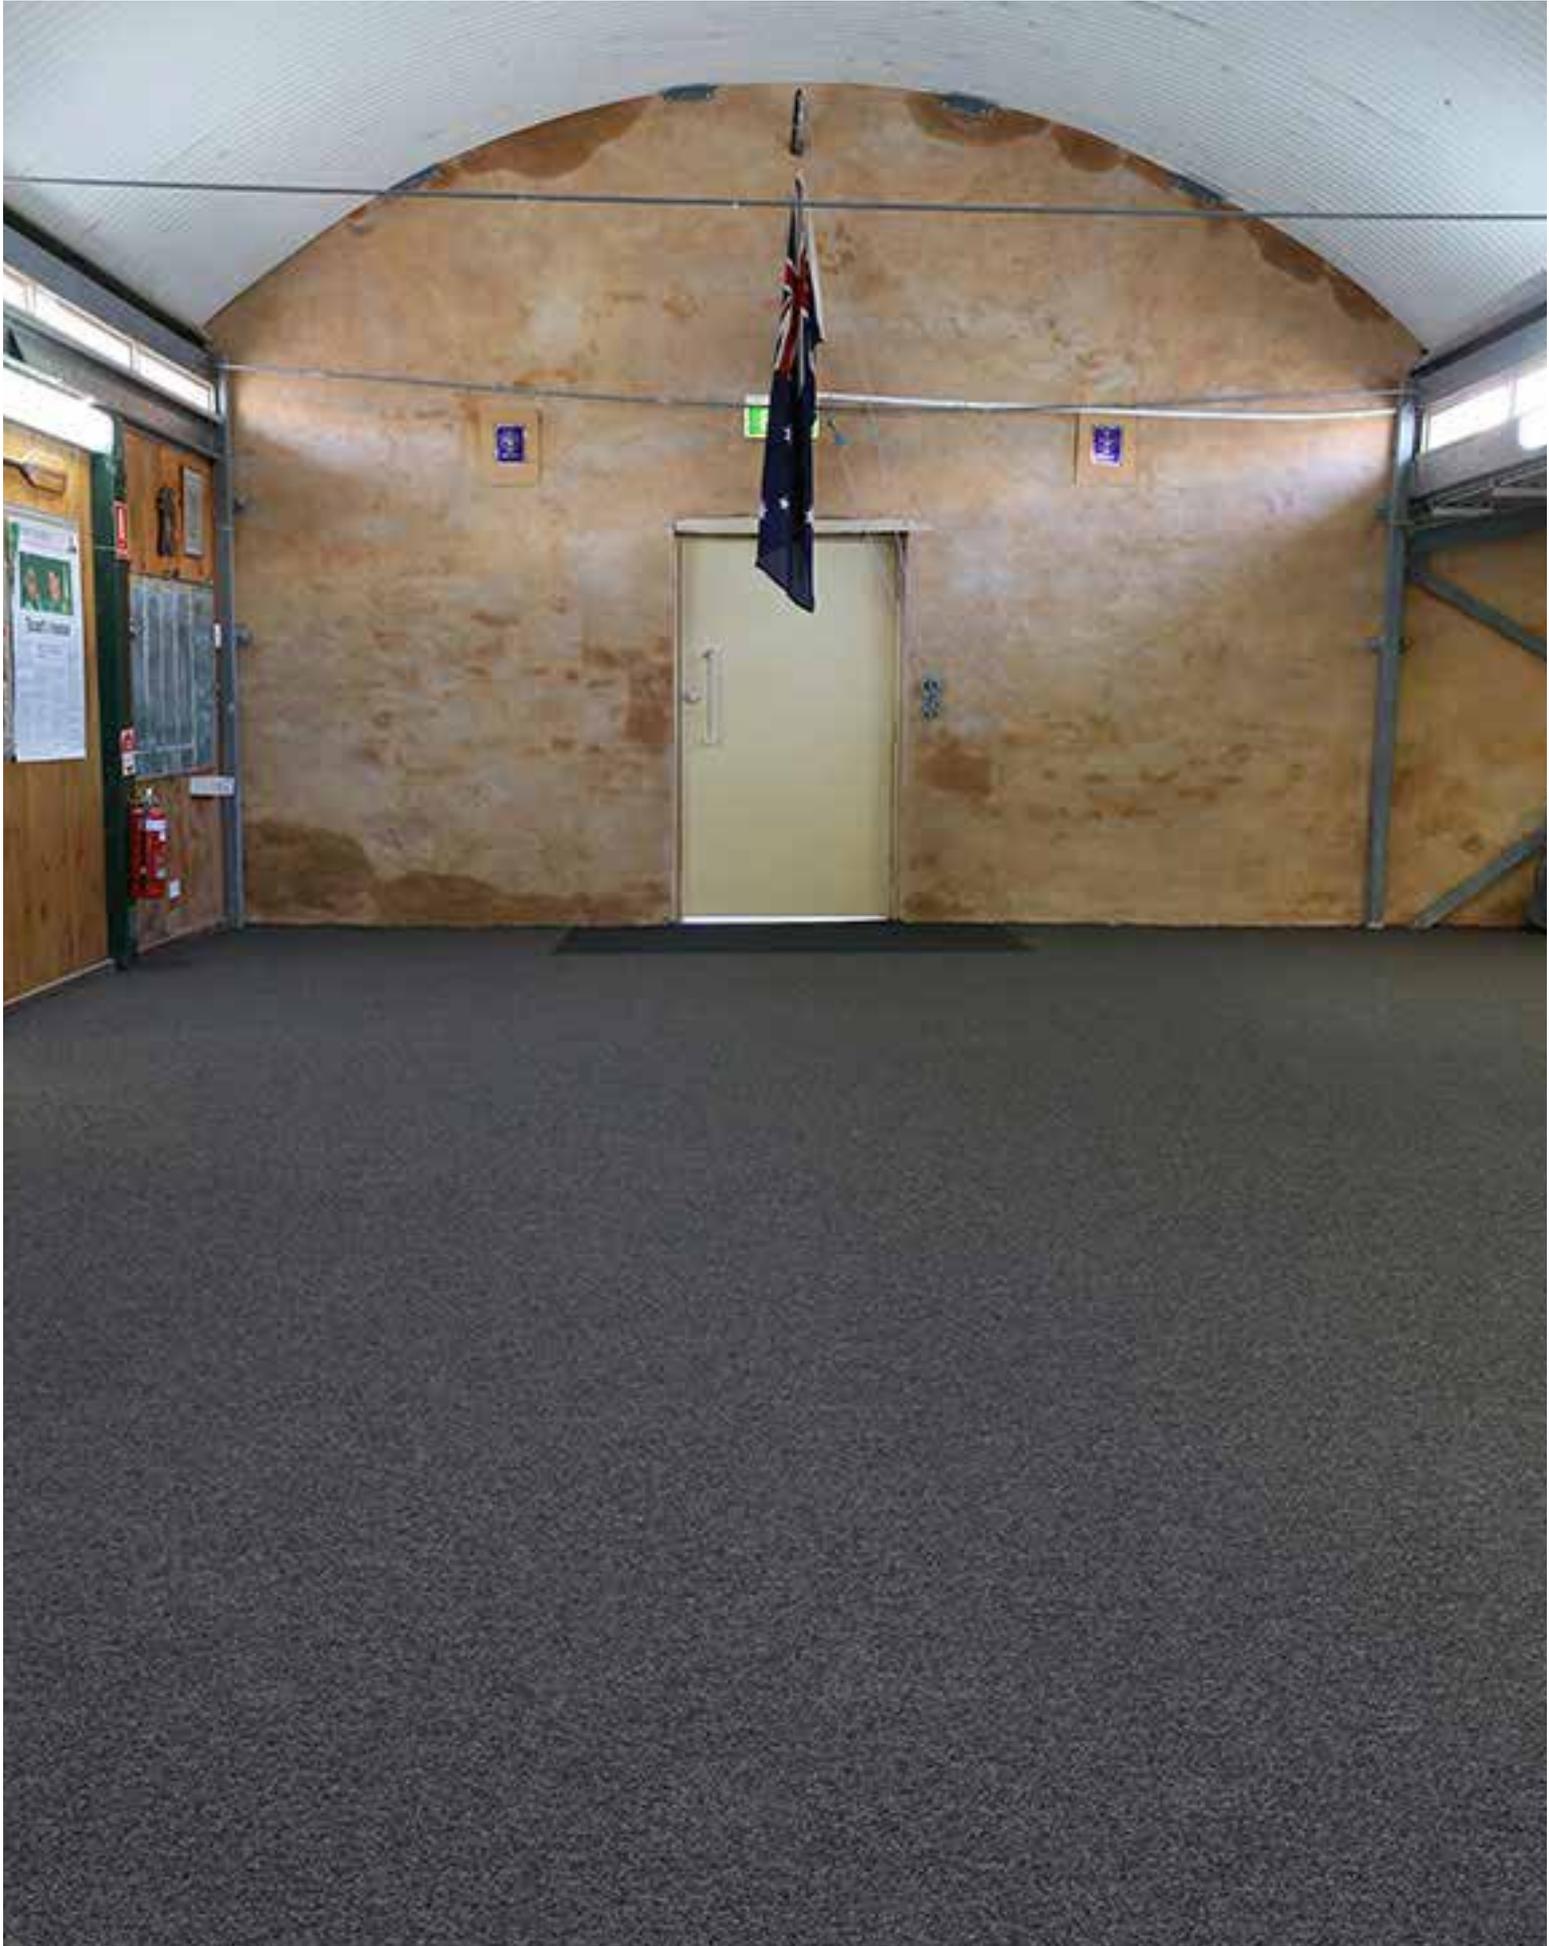

Designed and manufactured in Australia, Accentus is anti-static and easy to lay.

Noir 4115

## Features and Benefits

### A touch of class.

Vineyard raises the bar for premium polypropylene carpet, providing an outstanding combination of high-specification quality and affordability for homeowners, landlords, builders and developers.

### Style for modern living.

Vineyard exudes contemporary style. Its carefully crafted, modern and neutral colour palette and tailored pattern creates a clean, crisp look capable of complementing a wide range of interior themes.

### Understated luxury.

Delightfully soft to the touch, Vineyard provides a welcome sense of luxury in bedrooms and living areas.

### Virtually cares for itself.

Vineyard's polypropylene fibres are impervious to staining, will not absorb dyes, and will not absorb moisture. This ensures exceptional ease of maintenance, even in high humidity.

### Colourfast and made to last.

Designed to retain its aesthetic appeal for years to come, Vineyard's colours will not rub off or bleed, and strongly resist fading from sunlight and general wear.

eccare

IMPERY

BACKIN

**VIOUS**

**NG**

# The advanced impervious backing for demanding environments that are prone to spillage, such as healthcare and hospitality.

**ecare** offers a total solution for the healthcare industry. Its dependability is further strengthened by its anti-microbial properties and soft floor characteristics that give superior acoustics and a low-resistance surface perfect for wheeled traffic, such as trolleys and castor chairs.

## Dimensional Stability

The unique design of **ecare** incorporates an additional woven secondary backing for superior dimensional stability.

## Double Sealed Carpet Backing

The impervious, double sealed backing provides a unique, virtually seamless barrier against moisture penetration to the subfloor.

## 10,000 Hit Hammer Test

Stringent wearability testing by laboratories in the U.S have qualified the **ecare** backing to be an enduring performer in the most demanding conditions.

## Wheeled Traffic and Castor Chair Friendly

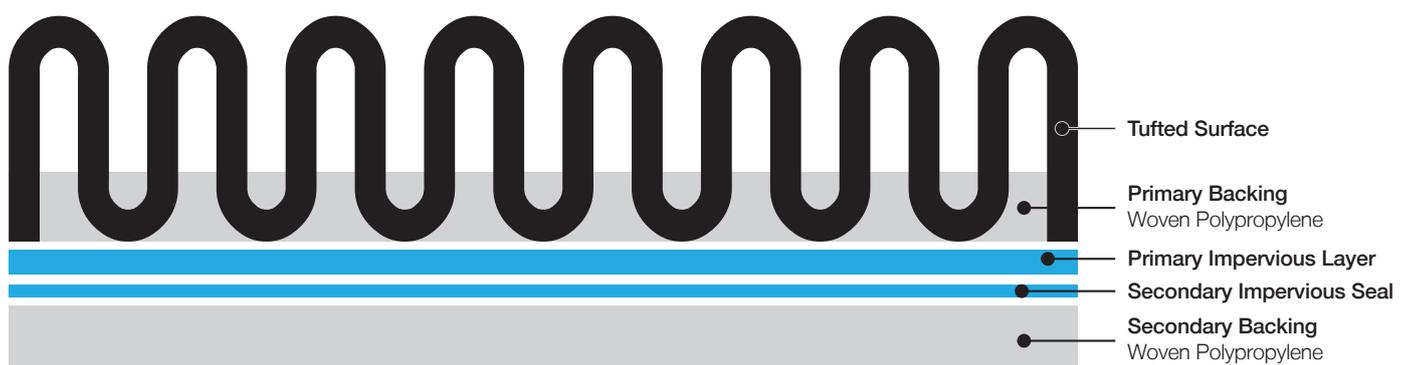

The low drag resistance properties of **ecare** provides a user friendly experience for wheeled traffic areas with a castor chair warranty.

## Fire Rated

**ecare** is a fire rated product for all commercial applications and is suitable for Class 9A patient care areas.

## Washable

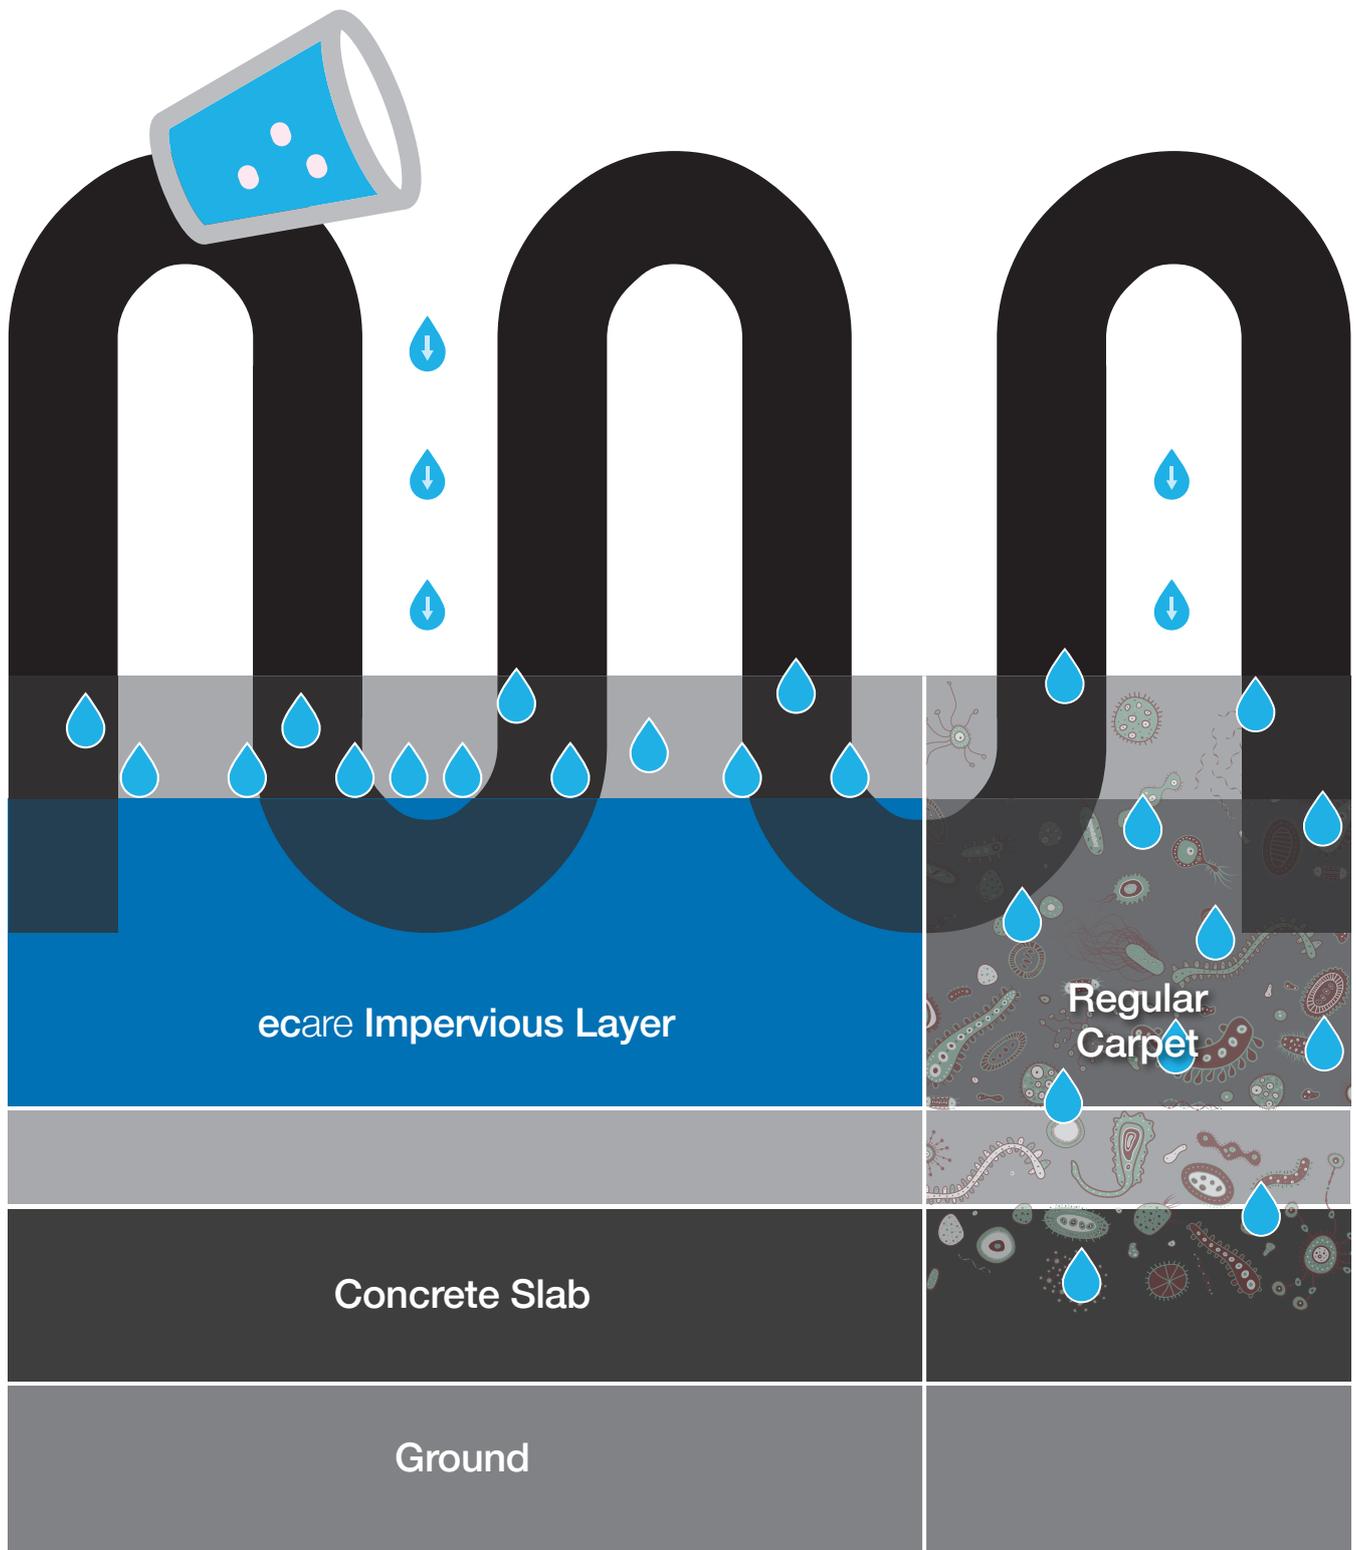

The impervious nature of **ecare** creates a waterproof barrier to the subfloor allowing for peace of mind cleaning without harmful side effects.

# ecare Impervious Backing vs. Regular Carpet Backing

The **ecare** backing is an impervious barrier against spills and the penetration of liquids and moisture into the subfloor.

It is an important factor of flooring, especially in healthcare, to minimise the risk of moulding and bacterial growth which can lead to odours and poor indoor air quality.

**Optional ecare backing  
available only with selected  
solution dyed nylon carpets,  
including:**

Accentus

Langhorne Hut

Serenus

Sensations

Willow Park
